

BOSSTAG SUPER-D TAG WITH PIN - AM

BosstTag Super Detection Tag has the highest detection range of any tag on the market.

Security: Standard
Detection Range: Very High

If your existing AM frequency security tag system has poor detection, it's likely the BossTag Super Detection Tag will close the detection gaps. Or if you want to place your security pedestals further apart than the manufacturers requirements, the BosstTag Super Detection Tag will allow this.

Smooth Pin Included

The pin is smooth and is less likely to damage threads like grooved pins do. No need to tag garments through seams. Faster application and removal. Attach tags in a visible position.

Lock

Superlock Detacher is a powerful magnetic detacher. If you are unsure if your existing detachers will open this tag, give us a call or email us.

Minimum Order QTY

- Includes Pin
- Ink Feature
- Ink Pin Compatible
- Pin Parking
- RFID Ready
- Size

100 Units
