

RED HOOK STOPLOCK

SECURITYTAGS.COM
IN=O

Security: High
Detection Range: Standard

This cable security tag is perfect for the protection of:

- Batteries
- Razor blades
- Ink cartridges
- USB drives
- Blister packaged merchandise.
- It requires the D910 detacher to release.

An economical Stoplock for use on display hooks. Locks hang cell merchandise onto your wall display hooks.

⋮

They can fit on hooks of 0.23" (6mm) thick and under.

Your existing hook must have sufficient bend on the end to prevent removal of the StopLock

Benefits

The Red Hook StopLock is a security lock that provides instant security to your existing standard single or double wire hooks.

You can select the number of "live" merchandise on your hook and how many sit "locked" behind the StopLock and released by sales assistants.
