

# BOSSTAG XT30

## HIGH SECURITY TAG WITH PIN

Boss XT30 comes with our high security XT pin lock mechanism. That means it can't be removed by other available high strength magnets. The oversized pin head resists pin shaft tampering.

 Security: HIGH

 Detection Range: HIGH

### XT Lock

Common Superlock and Standard Lock magnetic detachers are unable to release the pin from this tag. The high strength lock mechanism in the XT30 renders weaker detachers that may be used by shoplifters useless. Our XT Lock detachers can open this tag and just about any other magnetic tag.

**RFID Ready**

**Lanyard Ready**

<b>Add-ons</b>	
• Lanyard Metal 178mm	L002
• XT Lock Detacher, Above Counter	XTYS110H

### Flexibility

Flexible and scalable with four tags in one. Use as a high security clothing tag or you can pick from our different compatible pins: standard, ink, or a lanyard for attaching to accessories.

### Oversized Security Pin Head

Compared to standard tags that have small pin heads we increased the pin head size to 1.2", double the size of normal pins. This feature reduces the chance of a shoplifter cutting the pin shaft.

### Smooth Pin Included

The tag accepts smooth or grooved pins. The smooth pin will not damage threads like grooved pins do.
