

# ALLIGATOR TAG - GREY

**Security:** High  
**Detection Range:** Standard

The alligator is a vast leap forward in retail security tags. This tag is Revolutionary in that the pin and tag are interconnected.

The spring loaded pin is retracted into a housing when not in use and then pushed out when required. It's extremely easy and fast to apply and can be attached to garments with just a single hand and clicked into place.

## Benefits

- Easy & very fast to apply – Reduces application times dramatically when applying to large quantities of merchandise.
- Pin is part of the tag – no more lost pins.
- Hidden & retracting Pin – no risk of injury from pins to staff and customers.
- Can be used without having to pin through clothing.
- High strength magnetic lock for superior protection.
- Available in AM and RF technology.
- One-handed application and detaching accelerates checkout and alleviates unnecessary shopper delays.
