

OPTILOCK TAG SMALL - AM

SECURITYTAGS.COM
INΞO

Secure your designer glasses and sunglasses with our simple, non-restrictive and non-obstructive optical tag whilst allowing customers to freely try them on.

Sensormatic Compatible.

It has the best balance between size and security. Normally the smaller the tag the easier it can be removed by thieves and the bigger the tag the worse it looks on the glasses. Optilock gets the balance right. There is simply no better optical frame security tag on the market.

Benefits

Frequency: 58 Khz AM

Color: Light Grey

Lock: Proprietary screw lock

The Optilock tag is the best glasses security tag we have ever come across. We tested them all then chose the Optilock.
